Mr. Carnes was very professional. He came to my house a day earlier than expected which was a major plus for me. He was able to fix some wiring issues that I had in my attic. Once he finished that I mentioned some other issues that I had and he was able to complete them as well. I would most definitely recommend him to anyone in need of an electrician. Thanks for doing such a wonderful job! I look forward to having you do some projects for me in the future.

Eric answered my call immediately. He was very pleasant and knowledgeable. He responded quickly and was able to find and fix the problem so we now have lights working in bathroom and bedroom and no fear of fire. We have other things that need attention and he will give me quotes so we can have those fixed. I would definitely recommend him. Professional, responsive and very pleasant explaining everything that was done and why. Thank you. GOOD JOB!

I called the owner, Eric last Wednesday asked him to install the 240Volt outlet for our eclectic car charger. He came and checked and gave us a free quotation. And today he came and installed the out let for us. Eric was also very generous that reinstalled another outlet for us with no charge. I highly recommend The Flash Electric company. They are on time, responsible, and professional. Love it.

Eric showed up on time and diagnosed the electrical issue at our house very quickly. He worked tirelessly to get the repairs done quickly so that my family and I could return home. He had some hoops to jump through, like approval from our landlords and getting permits through the city, but he did all that he could as quickly as he could to make it happen. He kept me up to date the entire time he was working at our house. He cares about people not just doing a job, and I think that sets him apart from others out there. Highly recommend him for all your electrical needs!

I highly recommend this company. I called very early in the morning and got a response immediately. Had service less than a 10 hours. Rafael came out and helped in every way possible to put up a new chandelier. Thank you so much Rafael for your help and with my surprise to my mother.

Eric was awesome! Super fast and responsive. He responded within minutes of me contacting him via the website and got me in very promptly. He could've come same day if it had worked for my schedule. He came completely prepared and finished the job in less than half an hour. Cheaper than expected too. Highly recommended!

I made the appointment by text. The owner was very prompt to reply and kept me up to date on exactly when the technician would arrive and how much the service would cost. The technician who came out was very personable and knowledgeable and did the work quite efficiently. I will definitely recommend The Flash to anyone needing an electrician.

Talk about fast! I texted The Flash Electric about scheduling repairs and had a response within minutes. The repair was scheduled for the next day and Raphael, the technician, arrived on time and was excellent. He quickly identified the issue and ended up replacing a couple bad outlets. Power was restored and everything works as before. Service was quick and professional. I'll definitely use The Flash Electric again.

Eric did a great job helping us. He was quickly responsive and was able to come to our house in Atlanta the same week. He was courteous and repaired our issues in a flash. We will use them again.

The people at Flash were just all around perfect. The scheduling was easy. They showed up on time (and a day early).. RJ was super friendly and the work was done perfectly. Will definitely be calling them again.

Eric and Flash Electric were great. They installed a subpanel, a whole house surge protector, and a couple outlets in our basement for a future washer and dryer. They got the work done fast and the price was more than reasonable. I would recommend them to anyone in the area looking for an electrician.
